

Manufacturing Operator - Posted 5/10/24

Adjust-A-Grate (www.grate.com) is looking to hire a Full Time Manufacturing Operator to assist in the production of Window Well Grates, Ladders, and Security Kits that are sold in Home Depot, Lowe's, and on Amazon. We are expanding our manufacturing operations and are looking for reliable employees to join our team. The facility is located on Young Ct in **Erie, CO**. Normal shift hours are from 7:30 a.m. to 4:00 p.m. Monday thru Friday. Starting compensation is **\$18.00 to \$23.00 per hour** depending on experience.

Adjust-A-Grate is a strong proponent of cross-training; therefore, Manufacturing Operators will likely be trained on all steps of our process such as running automated forming equipment, making parts in Haas CNC Machines, and performing final assembly of grates. Since all manufacturing is done in-house, Operators have the ability to learn a variety of job functions and make suggestions along our continuous improvement journey. Employees will be rewarded as they take on more responsibilities.

We are a small company that has been in business for 32 years and growing due to our expanding operations into the Erie facility. If you are interested in this position, please include the word **GRATE** in your application.

Adjust-A-Grate is an equal opportunity employer.
